

Steel oven or baking dishes with non-stick coating
Recommendations for use
(to read and keep)

Use:

Traditional oven only

Do not use on a hob

Before:

Wash in warm, soapy water before first use, rinse and dry.

During:

Before each use, always lightly grease your dish. To preserve the anti-adhesive coating, do not use metal or sharp-edged utensils. Never heat up an empty dish. Do not add cold water to a hot dish

After:

Let the dish cool down before cleaning. Wash in warm water with a standard dishwashing liquid. Do not use scouring pads or abrasives; prefer the use of a nylon brush to avoid damaging the coating. Your utensils are dishwasher safe, but always dry thoroughly the rear side of the dish after washing to prevent rust. Never use chlorinated products or bleach.

Warranty:

International Cookware guarantees this product from the date of purchase against any manufacturing defects for the period printed on the packaging subject to the presentation of a proof of purchase.

The warranty does not cover damage due to misuse or professional use.

Staining, damages following notches in the coating or exposition to an excessive temperature, loss of non-stickiness due to wear are not covered under warranty
